Session Report 06.10.2006

INVENTICA 2006

AIMS

INVENTICA 2006 exhibition facilitates direct contacts between inventors, scientific researchers and representatives of large manufacturing and business companies, being the best place for promoting the Romanian technical intelligence in the international competition and in the same time the most certain place for finding a commercial demand for inventions. In addition, **INVENTIKA 2006** will have an international jury for the inventions exhibited and will be accompanied by a wide range of conferences, workshops, round tables and presentations held during the period of the exhibition.

PROGRAMME

INVENTIKA was organized under the patronage of the Romanian Ministry of Education and Research and the International Exhibition of Inventions of Geneva, having the support of the State Office for Inventions and Trade Marks, the Chamber of Commerce and Industry of Romania and the Chamber of Commerce and Industry of Bucharest, which, by their acknowledged prestige provided a professional and competent support to the participants.

IPA CIFATT Craiova had a stand reserved for the whole period of this event.

The stand was open from **9:00 to 16:00** o'clock, **daily**, for specialists and for large public.
