- Project partner ISET (2)
- ZAB (3)

How many attendees already knew about EIFN activities (roughly)? 9_____

RESULTS OF THE EVENT

The aim of the Testing Round Table in Brandenburg was to discuss the EIFN project and the financing of innovative energy projects with financial institutions, the 3 Chambers of Industry and Commerce and the Society for the Promotion of Renewable Energies.

The project and the tools were presented by ZAB. ISET informed about the possibilities and chances for SMEs in FP 7.

The financial institutions informed about their ideas concerning innovative energy projects and agreed to participate in the workshops.

The workshops in Brandenburg will take place in September/October/November 2007, eventually the last one in January 2008. ZAB and the three Brandenburg Chambers of Industry and Commerce will agree on the exact dates before June 2007 and invite firms and financial institutions.

The participants discussed the points of interest and agreed on the principle agenda for the workshops.
